## New Winery General Water Discharge Requirements

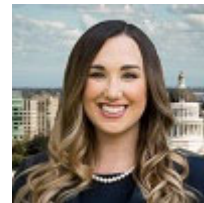

~~Thursday, December 17, 2020~~  
Thursday, January 21, 2021

[Register](#)

The State Water Board is developing statewide General Waste Discharge Requirements (WDRs) for winery process water (Winery Order) that address land discharge of process water from wineries, grape juice storage facilities, and wine distillation facilities.

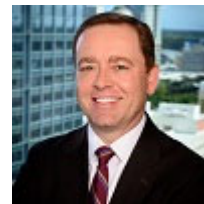

Wineries will be classified into regulatory tiers based on the total volume of process water discharged annually from the winery prior to treatment (e.g. discharged to a pond, land application area (LAA), or subsurface disposal system (SDS)). Application requirements, fees, and monitoring/reporting requirements correspond to the complexity of the discharge regulated under each tier.

### Presenters

[Janelle Krattiger](#)

(916) 319-4791

[Michael Mills](#)

(916) 319-4642

[John Lane](#)

(209) 938-1061

Please join [Stoel Rives](#) and [Condor Earth](#) for a webinar discussing the implications of the Winery Order and steps that can be taken to achieve compliance with the WDRs, including:

- WDRs and Monitoring Reporting Programs (MRPs);
- Groundwater Quality/Degradation Analysis;
- Contaminant Investigation, Remediation, Monitoring and Reporting;
- Groundwater Monitoring Well Installations and Development;
- Percolation Bed Testing;
- Groundwater Flow Modeling;
- Subsurface Disposal Systems, Hydrogeologic Investigations; and
- Construction Inspection and Materials Testing Services.

The adoption date has been postponed by the State Water Board to January 20, 2021. As a result, **we are rescheduling the date of our webinar accordingly to January 21, 2021** due to changes in the final, revised draft order. We look forward to seeing you then.

## When

**Thursday, January 21, 2021**

12:00 to 1:00 p.m. PST

## Where

*Webinar instructions will be sent the morning of the event.*

## Cost

Complimentary for clients and friends.
