

Industrial Storm Water Services

"We Lay the Groundwork for Success"

Condor Earth Technologies, Inc.

Condor Earth Technologies, Inc. (Condor Earth) maintains a team of professional geologists/engineers and Qualified Industrial Storm Water Practitioners (QISPs) who provide a full range of storm water regulatory services for industrial sites. We work collaboratively with our clients and affiliated consultants/contractors to support compliance with increasingly complex regulatory storm water discharge requirements including the State Water Resources Control Board's Industrial General Permit (IGP). Our approach is based on an understanding of IGP requirements and on decades of working with diverse industrial facilities including food processors, manufacturing facilities, petroleum facilities and wineries. Condor conducts thorough pollutant source assessments and prepares detailed, site-specific Storm Water Pollution Prevention Plans (SWPPPs) in addition to evaluating/recommending appropriate Best Management Practices (BMPs). Condor's experience with large and small projects informs us that all sites are unique—proactive and prompt communications between the consultant and site personnel are key to compliance and cost effectiveness. Condor specializes in developing and implementing storm water and water quality monitoring compliance programs, technical reporting, and facilitating client/consultant/contractor collaboration including facility support in response to Clean Water Act (CWA) citizen suits.

Storm Water Services

- Permit Registration Document Preparation (PRD)
 - Notice of Intent (NOI)
 - No Exposure Certification (NEC)
 - Notice of Non-Applicability (NONA)
- Evaluation and Technical Report Preparation
- SWPPP and Monitoring Implementation Plan (MIP) Preparation
- Exceedance Response Action (ERA) Evaluations and Technical Reports
- NONA Evaluation and Technical Report Preparation
- BMP Evaluations and Recommendations
- SWPPP Site Compliance Inspections
- SWPPP and Pollution Prevention Training
- Pollutant Source Assessments
- Storm Water and Surface Water Monitoring and Sample Collection
- Non-Storm Water Discharge (NSWD) Evaluations and Sample Collection
- Laboratory Analytical Data Assessment
- Annual Report Preparation
- Notice of Termination (NOT) Evaluation and Preparation

- Storm Water Multiple Application and Report Tracking System (SMARTS) Submittal
- Regulatory Communications and Client Advocacy

Additional Industrial Compliance Support Services

- RMP, CalARP, PSM, TRI, and SPCC Programs
- ROWD/WDR Programs
- NPDES Programs

License / Certifications

- Qualified Industrial Storm Water Practitioners (QISP)
- Professional Geologist (PG)
- Professional Engineer (PE)
