

# Construction & Storm Water Services

*"We Lay the Groundwork for Success"*

## Construction and Storm Water Services

Condor Earth Technologies, Inc. (Condor Earth) maintains a team of licensed and certified professionals who provide a full range of storm water, geotechnical, soil and groundwater remediation, and materials testing services for construction sites. We work collaboratively with our clients and affiliated consultants/contractors to support compliance with the State Water Resources Control Board's Construction General Permit (CGP) as well as the Environmental Protection Agency's Construction General Permit (EPA CGP). Our approach is based on an understanding of CGP requirements (from Notice of Intent (NOI) Permit Registration Document (PRD) Preparation to submittal

of Notice of Termination (NOT)) and on decades of working with contractors, engineers, and owners on diverse construction projects. Condor evaluates a project's risk assessment and prepares clean and understandable Storm Water Pollution Prevention Plans (SWPPPs) in addition to evaluating / recommending appropriate site-specific Best Management Practices (BMPs). Condor's approach includes proactive communication between inspectors and site personnel to promote compliance and reduce cost.

## Storm Water Services:

- NOI Preparation
- SWPPP Preparation
- Erosion Control Plan (ECP)
- Storm Water Multiple Application and Report Tracking System (SMARTS) submittal
- BMP Evaluations and Recommendations
- BMP Effectiveness Evaluations
- SWPPP Site Compliance Inspections
- SWPPP and Pollution Prevention Training
- Soil/Storm Water Monitoring and Sample Collection
- Non-Storm Water Discharge (NSWD) Evaluations and Sample Collection
- Laboratory Analytical Data Assessment
- Annual Report Preparation
- NOT Evaluation and Preparation
- Regulatory Communications and Client Advocacy

## Construction Site Services:

- Civil Engineering Services
- Construction Inspection and Materials Testing
- Geotechnical Engineering and Consulting
- Soil and Groundwater Remediation
- Underground Storage Tank (UST) Services

## License / Certifications:

- Professional Geologist (PG)
- Professional Engineer (PE)
- Qualified Storm Water Developers / Practitioners (QSDs/QSPs)
- Certified Erosion, Sediment, and Storm Water Inspector (CESWI)
- Certified Professionals in Erosion and Sediment Control (CPESC)
- Certified Inspectors of Sediment and Erosion Control (CISEC)
