

Industrial Environmental Services

"We Lay the Groundwork for Success"

Condor Earth Technologies, Inc.

Condor Earth Technologies, Inc. (Condor Earth) maintains a team of professional geologists/engineers, and certified professionals including Qualified Industrial Storm Water Practitioners (QISPs) who provide a full range of storm water, industrial compliance, and surface water/land waste discharge services for industrial sites. We work collaboratively with our clients and affiliated consultants/contractors to support compliance with increasingly complex regulatory requirements including the State Water Resources Control Board's Industrial General Permit (IGP), National Pollutant Discharge and Elimination System (NPDES) programs, Waste Discharge Requirements (WDRs), and Chemical Risk / Process Safety Management Programs. Our approach is based on the understanding of IGP requirements and from years of working with diverse industrial facilities ranging from food processors, manufacturing facilities, petroleum facilities and wineries. Condor prepares detailed and site-specific Storm Water Pollution Prevention Plan (SWPPP) in addition to evaluating/recommending appropriate site-specific Best Management Practices (BMPs). Condor's experience with large and small projects informs us that all sites are unique; proactive and prompt communications between the consultant and site personnel are key to compliance and cost effectiveness. Condor specializes in developing and implementing storm water and water quality monitoring compliance programs, technical reporting, and facilitating client/consultant/contractor collaboration including facility support in response to Clean Water Act (CWA) citizen suits.

Storm Water Services

- Permit Registration Document Preparation (PRD)
 - Notice of Intent (NOI)
 - No Exposure Certification (NEC)
 - Notice of Non-Applicability (NONA)
- Evaluation and Technical Report Preparation
- (SWPPP) Preparation
- Monitoring Implementation Plan (MIP) Development
- Technical Report Preparation and Pollutant Source Assessments
- Storm Water Multiple Application and Report Tracking System (SMARTS) Submittal
- BMP Evaluations and Recommendations
- SWPPP Site Compliance Inspections
- SWPPP and Pollution Prevention Training
- Storm Water and Surface Water Monitoring and Sample Collection
- Non-Storm Water Discharge (NSWD) Evaluations and Sample Collection
- Laboratory Analytical Data Assessment
- Annual Report Preparation
- Notice of Termination (NOT) Evaluation and Preparation
- Regulatory Communications and Client Advocacy

License / Certifications

- Qualified Industrial Storm Water Practitioners (QISP)
- Professional Geologist (PG)
- Professional Engineer (PE)
- Certified Professionals Environmental Auditor (CPEA)
- Certified Process Safety Auditor (CPSA)
- STI SP001 Above Ground Tank System Inspectors

Environmental Services

- Chemical Risk Management / Industrial Compliance
 - RMP, CalARP, PSM, TRI, and SPCC Programs and Compliance Support
- Hazardous Materials Management Plans
- Report of Waste Discharge (ROWD) for WDR
- NPDES Surface Water Discharge Monitoring Programs
- Environmental Assessment and Remediation
