

Geotechnical Services

“We Lay the Groundwork for Success”

Overview

Condor’s experienced team of Registered Geotechnical Engineers and Certified Engineering Geologists provides a broad range of geotechnical services. For nearly three decades, Condor’s licensed professionals have been performing geotechnical investigations and seismic studies to evaluate sites for construction of schools, hospitals, multi-story structures, office buildings, community developments, and many types of public infrastructure.

Services Provided

- Preliminary Geotechnical Engineering Investigations
- Design-Level Geotechnical Engineering Studies
- Hydrogeological and Geophysical Investigations
- Geologic and Seismic Hazard Studies
- Engineering Geologic Investigations
- Slope Stability Evaluations
- Mechanically Stabilized Earth Design
- Forensic Engineering
- Soil Liquefaction Analysis
- Dewatering Design and Implementation
- Soil Stabilization Design
- Laboratory Soil Testing

GEOTECHNICAL AND ENGINEERING SERVICES

Geotechnical Services

- Preliminary Geotechnical Engineering Investigations
- Design-Level Geotechnical Engineering Studies
- Hydrogeological and Geophysical Investigations
- Geologic and Seismic Hazard Studies
- Engineering Geologic Investigations
- Slope Stability Evaluations
- Mechanically Stabilized Earth Design
- Forensic Engineering
- Soil Liquefaction Analysis
- Dewatering Design and Implementation
- Soil Stability Design
- Laboratory Soil Testing
- Mine Reclamation Plans

Materials Testing and Special Inspection

- Construction Quality Assurance/Quality Control (QA/QC)
- Earthwork and Grading (QA/QC)
- DSA Field and Laboratory Testing
- CBC Special Inspection
- AWS Welding Inspection

Public Agency Services

- Owners Representative
- Project Inspector Services
- Staff Augmentation
- Storm Water Inspection/Monitoring

Drone/UAS Remote Sensing Services

- Flight Planning and Piloting
- Processing and GIS Based Data Collection and Analysis
- Photos, Videos, Maps and Models

Storm Water & Water Resource Services

- Qualified SWPPP Developer/Practitioner Services (QSD/QSP)
- Storm Water and Surface Water Sampling Programs
- Monitoring and Reporting Programs (MRPs)
- Storm Water BMPs and Erosion Control Design
- Staff Augmentation
- Inundation Mapping and Emergency Action Plans
